HIGHER GROUND

ADVENTURE. SUPPORT. BELONGING.

“Our problems are large, but our unified heart is larger. Our challenges are great, but our will is greater.”

– President George HW Bush,
signing of the Americans with Disabilities Act, July 1990

20+ YEARS

**THERAPEUTIC RECREATION
ADAPTIVE SPORTS & EDUCATION**

*At Higher Ground
88 cents on each donated dollar
goes to support the critical programs that
changed the lives of over 1,000
participants this year.*

Thanks to our donors, we were able to log a record number of nearly 25,000 program hours.

There are over 1,900 veterans on our waitlist for our week-long programs.

Higher Ground has a 4-star rating, the highest, on Charity Navigator.

We have a platinum rating, also the highest, on Guidestar.

These highly-regarded, top-tier resources objectively evaluate a nonprofit's financial health, impact, transparency, and accountability.

WE OFFER:

- Day and week-long therapeutic programs for veterans
 - Adaptive sport lessons and programs for kids
 - Social clubs for adults with disabilities
- Virtual programs to keep connected during the pandemic

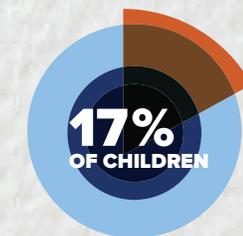

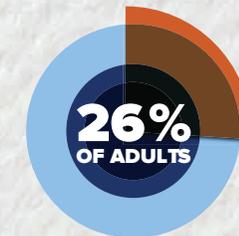

THERE ARE 61 MILLION AMERICANS LIVING WITH A DISABILITY.

The people of Higher Ground are the foundation upon which everything rests, and each of you is an integral piece in creating lasting therapeutic impact and memories for our participants.

This past year we were all faced with unparalleled vulnerabilities that left us unsure of the way ahead. But at Higher Ground we were able to rally our greatest resources in our people - our staff, Board, donor community, and volunteer force - to maintain the fortitude to serve our participants, and remain optimistic for the future.

We are grateful for the role you play as the demand for our Higher Ground programs grows, and as we continue to be present for and focused on our ever-growing community.

Kate Weihe, Executive Director

Today, 26% of adults and 17% of children in the US live with some type of disability that impacts their major life activities—making them 4.6 times more likely to report mental distress.
